WARNING

TOP BUNKS AND ELEVATED BEDS ARE DANGEROUS AND ARE NOT RECOMMENDED FOR CHILDREN UNDER THE AGE OF 9.

Children should be discouraged from playing on the bunk bed.

The bunk bed should be checked periodically to ensure that the guardrail, access device and other components are maintained in the correct position and state of repair and that all connectors are tight.

The upper bunk must be more than 2 m from any ceiling fan.

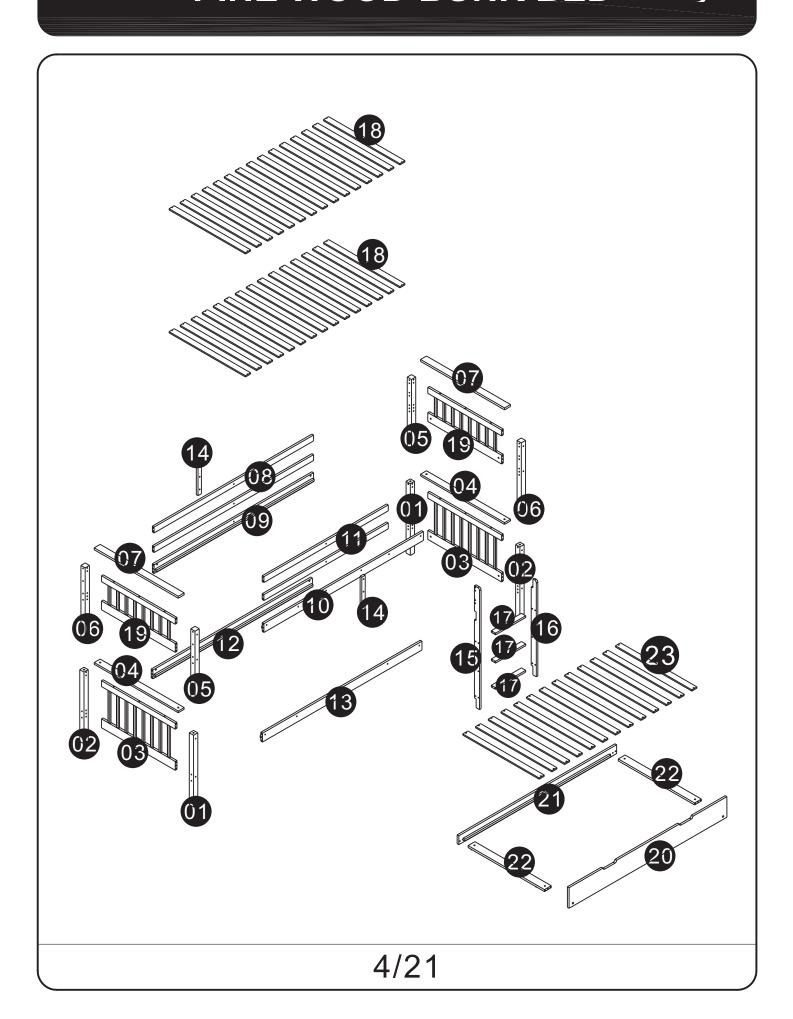

Falls from elevated beds can be fatal and deaths have occurred where children have fallen from elevated beds. This is relevant for all ages. The risk is greater for younger children.

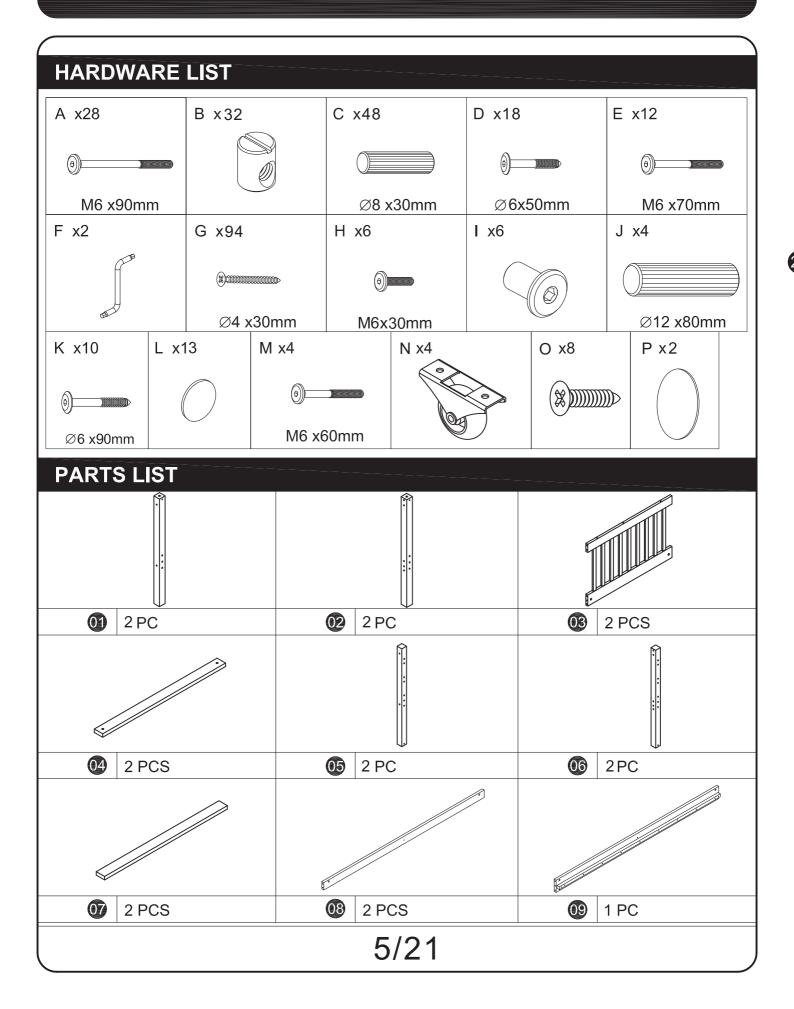

The risk of injury or death from a fall from an elevated bed compared to a non-elevated bed is:
