IMPORTANT - READ CAREFULLY - KEEP FOR FUTURE REFERENCE

a) **WARNING** Raised beds and the upper bed in a bunk bed assembly are not good for children under 6 years old because of the risk of injury from falling from such beds.

b) **WARNING** If the raised and bunk beds are not used correctly, they can present a serious risk of injury from strangulation. Never attach or suspend things from the upper bunk bed that are not going to be used with that bed. Such things include - but are not limited to - cords, string, sashes, hooks, belts and bags.

c) **WARNING** Children can find themselves trapped between the bed and wall, or inclined roof wall, ceiling, adjacent pieces of furniture (such as cupboards) or other items. To avoid any risk of serious injury, the distance between the upper safety barrier and surrounding items should not exceed 75 mm - or the distance should be greater than 230 mm.

d) **WARNING** Do not use the upper bunk bed or a raised bed if a part of the structure is missing or broken. Spare parts should be requested from the manufacturer or shop.

f) The recommended size of the mattress to be used with the bed is 1900 mm x 900, Maximum mattress thickness: 180mm.

k) The fastenings put in place on assembly should all be properly tightened and regularly checked. Retighten the fastenings as necessary.

l) This complies with the requirements of the European Safety Standard EN 747-1:2012+A1: 2015.
