OTTOMAN BEDS

- Caution, this Ottoman bed frame uses a pressurised mechanism.
- Please ensure children and animals are kept away from the bed when operating the mechanism.
- Use caution when operating and always use the strap provided and fitted at the foot end.
- You must always ensure the mattress is on the bed frame before lifting the mechanism. Failure to do so may result in injury or damage to the mechanism.
- If removing the mattress, make sure the ottoman bed frame is secured as it could flip open.
- Only use the storage compartment when the ottoman bed frame is fully in the upright position.
- Do not remain on the ottoman bed frame whilst the lifting mechanism is in use.
- Beware of entrapment. Keep both hands clear of the mechanism when operating.
- When lifting the ottoman bed frame, remove all bedding except the fitted sheet.
- Always use the strap to lift or lower the ottoman metal frame. Close the ottoman metal frame by pushing down firmly with both hands towards the centre of the bed frame with equal pressure.
- No children or animals should be left unattended when the ottoman bed frame is in the upright position.
- When fully assembled, raise and lower the ottoman metal frame 4/5 times to ensure the gas pistons are fully lubricated.
- Ensure to re-tighten all nuts and bolts within the ottoman bed frame after the first two weeks of use.
