

DOUBLE / KING SIZE

Important Information

- We suggest you spend a short time reading through this leaflet and then follow the simple step-by-step instructions.
- Carefully check that you have all the parts before beginning assembly.
- Keep fittings out of children's reach and keep children well away from construction area.

An instructional video of the operation of the Ottoman Lift Up System is available via YouTube using the following address: https://youtu.be/hyq4zm7h_yU

Warning

- You must ensure that the mattress is on the bed frame before operating the lift mechanism, failure to do so could result in injury.
- Keep hands clear of the mechanism when opening or closing the ottoman.
- Beware of entrapment – Never reach in through the mechanism to access the storage area. Always be sure that the ottoman is FULLY opened before accessing the storage area.
- Do not exceed the maximum weight as specified in the table below:

Bed	BedSize	Min Weight (kg)	Max Weight (kg)
LANGDEN OTTOMAN TV BED	Double	20	50
	King	20	50

Warning

- Use caution when operating, always use the handle when lifting.
- Note: This bed uses a pressurised mechanism.
- To be operated by adults only
- Please ensure that children and pets are kept away from the bed when operating the lift mechanism.
- Keep children and pets away from the storage area.
- Do not overload the internal storage base.
- Do not stand inside the internal storage area of the bed.
- Before removing the mattress secure the frame to ensure it does not open unexpectedly.
- Do not attempt to lay on the mattress when the ottoman is in the raised position.

 • **Fully Open Ottoman:** Ensure the ottoman is fully open before accessing the storage area.
• **Avoid Hinge Area:** Do not reach into the storage area through the hinge mechanism.
• **Keep Children and Pets Away:** Ensure children and pets stay away from the storage area. Do not stand inside the internal storage area of the bed.
• **Maintenance:** Regularly inspect your bed to ensure it is functioning correctly.

 • **Adult Operation Only:** Not recommend for use by under 12 years old. Please note ease of operation is dependent on height and strength of user.
• **Avoid Entrapment:** Always lift the bed with the mattress in place, using the handle to lift and lower the base, keeping clear of the mechanism.

Note: Be very careful what you store under the bed - the top of an item, like a box or a suitcase, must not touch the slats or they may be damaged. Maximum storage height is 295mm.

Ottoman Beds - Important Safety Features

Our aim is always to give you the best experience and to ensure every effort has been made to guarantee your comfort and safety. Please take time to look at these instructions as they will help remind you how to operate your ottoman bed safely.

Here's a few things you need to remember;

- ✓ **Pistons are already shown in their correct orientation – this improves piston performance and durability.**
- ✓ **“Break in” the piston seals on first use by raising & lowering the platform at least five times.**
- ✓ **Recommended mattress weights - do not exceed the maximum relevant weight specified on the Assembly Instruction.**
- ✓ **Ottoman support bar – always engage the support bar when accessing the ottoman storage area.**

Read all the instructions before using your Ottoman bed-frame and save the instruction booklet for future reference.

Ottoman Support Bar (O.S.B.)

For optimal safety during operation, always ensure the O.S.B. is engaged when accessing the ottoman storage area.

1. Always raise the ottoman slat-frame to it's highest position before using the storage area.
Locate the end of the O.S.B and insert into the fixed retaining bracket on the bed frame.
2. When you are ready to lower the ottoman platform, return the O.S.B to its original parking position.
3. Always ensure that the O.S.B is in position when the ottoman is open, this prevents injury, or damage to the product.

Location of the O.S.B

WARNING! Risk of Entrapment

- The pistons on the ottoman bed frame can support a maximum load (evenly spread) as indicated in the Minimum and Maximum load table shown in the main Assembly Instruction.
- Overloading the sleeping platform may contribute to damage to the product resulting in potential serious injury.
- Do not sit on the mattress whilst the platform is in motion or is in the raised position.
- Users should only get in and out of bed when platform is in the flat (horizontal) position.

4. Pairing to the TV Lift

The RC is supplied pre-paired to your TV Lift.

Occasionally you may find the radio wave connection between remote control and TV Lift is lost, probably due to atmospheric conditions. In that case please follow these simple instructions below:

1. Disconnect all mains electric power to the bed, for at least 60 seconds.
2. Press UP or DOWN Button on Remote Control and keep holding button pressed down, simultaneously re-connect mains electric power to bed keeping button down for at least a further 5 seconds. TV Lift unit receives signal from Remote Control and lift will begin to move UP or DOWN whichever direction is appropriate.
3. Re-connection is now completed.

Step 8

On the RC, press the "UP" button to raise the TV lift.

Step 9

Note: For illustration purposes only, TV connections may vary.

Tip: Before fitting the TV, push any leads through each duct from the top choosing the best side to use depending on where the connection ports are on back of your TV. Never cross leads from one side to the other unless as shown in the instruction below in this Step.

Step 10

Fitting the television.
Maximum TV dimensions: W98 x H57.5 x D8cm

Set ruler height to height of
TV - 57.5 cm is the maximum.
