Assembly Tip

Before you begin, it's best to identify all of the parts and fittings to build your ottoman bed frame. We advise laying these out on the floor to check you have everything, and to familiarise yourself with all of the parts and fittings before building.

Top Tip

We recommend that you build your new ottoman bed frame in the room you'd like it to be located. This will help prevent any risk of damage to the frame whilst moving it.

Safety and Care

It's important to ensure children and animals are kept away from the assembly area, as there are small components used in this bed frame which could present a choking.

All plastic and wrapping materials should also be kept away from children and animals to prevent any risk of suffocation.

Help and Support

Please contact our customer service team on 0192 495 0108 if you have any questions or issues with your purchase.

Recycling

Please ensure that packaging is disposed of in a safe and environmentally friendly way, and recycle where possible. Please keep your assembly instructions safe to refer back to in the future.

Operating Your Ottoman Bed Frame Safely

- Caution, this ottoman bed frame uses a pressurised mechanism.
- Please ensure children and animals are kept away from the ottoman bed frame when operating the mechanism.
- Use caution when operating, and always use two hands at arm's length.
- You must always ensure the mattress is on the ottoman bed frame before lifting the mechanism. Failure to do so may result in injury or damage to the mechanism.
- If removing the mattress, make sure the ottoman bed frame is secured as it could flip open.
- Only use the storage compartment when the ottoman bed frame is fully in the upright position.
- Do not remain on the ottoman bed frame whilst the lifting mechanism is in use.
- Beware of entrapment. Keep both hands clear of the mechanism when operating.
- When lifting the ottoman bed frame, remove all bedding except the fitted sheet.
- Always use the strap to lift or lower the ottoman metal frame. Close the ottoman metal frame by pushing down firmly with both hands towards the centre of the bed frame with equal pressure.
- No children or animals should be left unattended when the ottoman bed frame is in the upright position.
- When fully assembled, raise and lower the ottoman metal frame 4/5 times to ensure the gas pistons are fully lubricated.
- Ensure to re-tighten all nuts and bolts within the ottoman bed frame after the first two weeks of use.

Parts

Before you begin building your ottoman bed frame, please take a moment to read through the instructions and make sure that you have all the relevant parts listed on the parts check list.

PART CHECK LIST -Carton 1 of 2

NO.	Part list	QTY	NO.	Part list	QTY
1	Headboard	1pc	11	Slat	15pcs
5	Central Support Rail	1pc			

PART CHECK LIST -Carton 1 of 2

Insert both Mattress Positioning Handles (15).

Step9:Attaching the Slat Caps to the Ottoman Bed Frame

- 13

Side Slat Caps 30pcs

Push down firmly on the Slat Caps into the pre-drilled holes on the Ottoman Metal Frame.

Step 10:Attaching the Gas Stuts to Lift Mechanisms

- Ⓟ

4pcs
- Ⓜ

1pc
- 10

1pc

Attach the Strap (10) to the Center Ottoman Metal Frame, at the Footboard end.

Care and Maintenance

Here are some good tips to keep your new ottoman bed frame in tip-top condition.

Cleaning

To clean your new ottoman bed frame, we advise using a damp cloth if the fabric is dusty or a low suction vacuum. Do not use abrasive chemicals or bleach as this may damage the product.

Checking and moving

Periodically, we recommend you check that the screws and fixtures haven't become loose over time. To move your bed frame, we recommend lifting it where possible, as dragging or pushing it could cause damage to the legs or flooring.

Fabric

Please note, depending on the lighting, positioning and surroundings of your room, the shade of the fabric will appear differently. Over a period of time, the fabric may also lighten or fade slightly due to light exposure.
